ADMINISTRATOR'S REPORT July 2002 Update

H2P2 Implementation Activities of the Subarea Health Planning Councils (SACs)

Hawaii	H2P2 Chapter on Behavioral Health: The Hawaii County SAC is working on their grant project studying access to behavioral health services/facilities. Currently, we are in the process of designing provider and consumer surveys to collect data for our study. Members are planning for the related community forums and a November conference to address this issue.
Honolulu	H2P2 New Chapter Development: Members are designing a new chapter to H2P2 for long-term. They have already outlined the basic chapter structure. The next step is a literature search for outcomes data in the long term care field. Members will also check with experts they know for guidance.
Tri-Isle	H2P2 Chapter on Dental/Oral Health: Again this month, the Tri-Isle SAC continues to organize activities to address early childhood caries. The SAC's Maui County Dental Health Alliance completed its nomination process for its <i>2nd Annual Special Recognition in Oral Health Award</i> that will be presented in August. The SAC's Alliance and others are engaging in community processes to develop a Maui County Oral Health Plan.
Windward	H2P2 Chapter on Diabetes and other Chronic Disabling Conditions: The SAC's Windward Oahu Asthma Coalition and American Lung Association of Hawaii are continuing to seek funding for the Ha Maui I Ke Ola Program (Breath of Life). They are seeking funding to expand the reach and impact of the program to other communities in the Windward area.
West Oahu	H2P2 Chapter on Behavioral Health: West Oahu SAC members are collecting information and continue to schedule guest speakers to educate themselves on behavioral health issues and community building.
Kauai	H2P2 Chapter on Behavioral Health: Members screened the Kauai Drug Abuse Coalition's bookmarks/cards and noted that some of its information needs updating. Kauai Electric with a mail listing of 53,000 consumers was selected as the #1 choice of how to distribute the bookmarks/cards.

Research and Statistics:

Website stats: During June of 2002, the SHPDA website had a whopping 7,228 hits – again, the majority are visiting our “Health Policy Guidebook.”

Website new features: A “search engine” to find Executive Summaries of current certificate applications has been added to our website – www.shpda.org. This section of our website is proving quite popular.

Utilization Report: As of 7/22/02, the SHPDA Inpatient Utilization Survey has a 84% response rate and the Home Health Survey has a 50% response rate. The Agency is strongly reminding those who have failed to respond to do so as soon as possible via letter and telephone calls.

Certificate of Need Applications

- #99-19 Withdrawal – Rehabilitation Hospital of the Pacific has withdrawn its certificate for the establishment of a 4-bed rehabilitation unit at Kauai Veterans' Memorial Hospital on Kauai.
